

Peter Stone

**Interim Head of Commercial Services at London Borough of Merton Council**

Simon worked as part of my team at Peterborough City Council, where his expertise in transactional services was much appreciated both internally and externally. He has a calm assured manner and is an excellent team player too, more than capable of fronting key meetings and discussions

He built key relationships quickly and always delivered quality work on time. His experience on both client and contractor sides was invaluable in producing specifications and top level performance indicators and I would have no hesitation in recommending him
